

MY ROOM

Look at this pictures. This is my father's and my room. My room is alone the daytime. But my father is in my room at night. I was in my sister's room before. But I come to my father's room. I want a one room. And I want a large room.

My mother put her dress in our room. There are some bookcases. There are many books in bookcase. There are many things in our room. There is a TV in our room. My family's watching TV at night. My room is lively at night.

That's all thank you.
